

GARDELUX® 2

THE SYSTEM TO CREATE SPATIAL SIMPLICITY
WITH FUNCTIONAL COAT RACKS

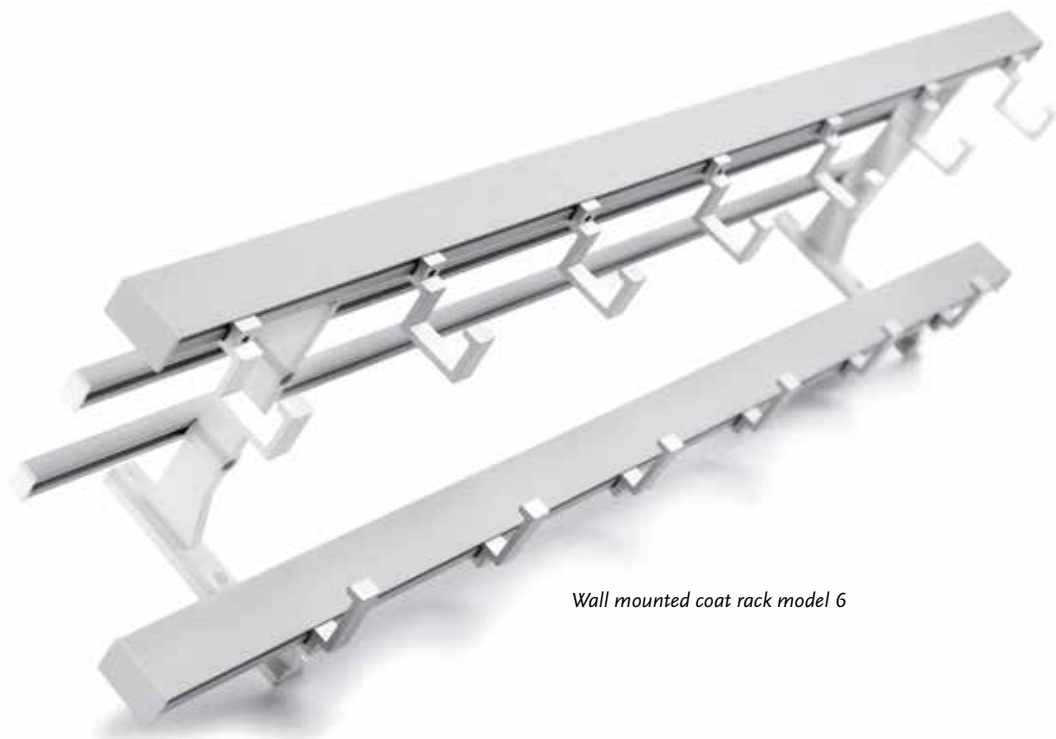

gardelux®
by Hermeta

A close-up photograph of the Gardelux 2 coat rack system. The image shows several pieces of silver aluminium tubing and black hooks. The tubing is connected to form a structure against a light-colored, textured wall. The lighting is soft, highlighting the metallic surfaces and the geometric shapes of the components. A dark green horizontal band is overlaid on the image, containing the title and a descriptive paragraph.

Gardelux 2 systematizes coat racks

The clear and strong lines of aluminium tubing in combination with black hooks and black wall supports are characteristic of the Gardelux 2 coat rack system. Also a white/aluminium combination is possible. It is a modular system where the customer can choose its most suitable composition.

corners and hooks facing backwards*

Installation options

The Gardelux 2 system can be supplied with different hat- and coat hook models and coat hangers. The tubes of coat racks and hat shelves can be produced in a stronger and heavier grade (model S). The standard mid-point to mid-point distance of the coat hooks is approximately 15 cm and of the coat hangers, if required in combination with coat hooks, 10 cm (deviations possible).

A close-up photograph of the Gardelux 2 aluminium strips. The strips are silver-colored and feature a series of black, angular coat hooks. The strips are arranged in a row, with the hooks pointing downwards. The background is a soft, out-of-focus light color.

Adaptable in size

In fitting out a dressing-room or wardrobe with Gardelux 2 the choice of model is dependent on the storage capacity required. In a small room more hanging space can be created by adding, for instance, an extra aluminium strip with single or double coat hooks. Size of the units is no problem. Gardelux 2 can be supplied in any length.

Strong and stable freestanding units

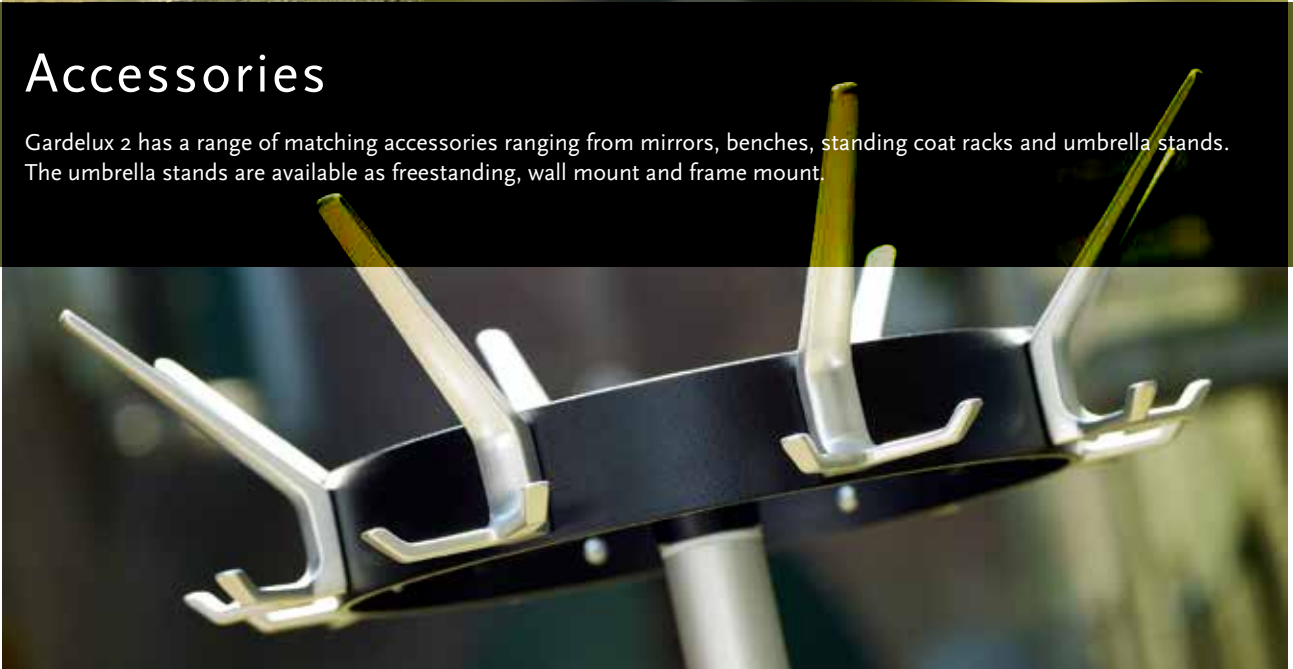

Gardelux 2 can be installed on a freestanding frame resulting in independent units, also in combination with benches. Frames can be supplied in different heights and on request in different colors. They come standard with adjustable feet. Other options are castors or adjustable floor anchors. Frames can be joined to form larger units.

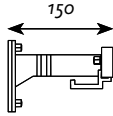

Accessories

Gardelux 2 has a range of matching accessories ranging from mirrors, benches, standing coat racks and umbrella stands. The umbrella stands are available as freestanding, wall mount and frame mount.
